Dear Sirs,

On the last month I have seen a total of 9 UFO's. Three or four weeks ago, while at my friends house, we heard on the radio that one had been sighted southeast of the city. We went out and looked for it. About two minutes later we saw it in the south, heading west. We ran through a schoolyard to keep it in ~~view~~ sight. We watched it until it was out of sight then we ran back to my friends house. We got his dad to take us out in the country to get a better look at it. When we got out a ways, we got out of the car and looked for it but it was gone. After arriving back at his house, we stood outside for a while. Approximately fifteen minutes later we sighted another one. This one was different in appearance, but was heading in the same general direction as the first. We sighted two others that night, three the next night, and two a couple of nights later (all but 1 of these looked the same). I have heard that you have a form that I could fill out to tell you more about all of the sightings I've seen. Please send me some of these blanks for the witnesses I have. Thank You.

Respectfully yours,
